United States District Judge

ATTACHMENT A

The Court finds that the plea hearing to be held on April 6, 2023, cannot be further delayed without serious harm to the interests of justice, for the following reasons:

1. To ensure that the Court is not overwhelmed by cases and proceedings at the conclusion of this period of emergency. Currently, District Judges in New Jersey handle a substantially larger docket of cases than Judges in other Districts in the United States. New criminal cases continue to be assigned by the Court during the Covid-19 emergency. If the Court cannot resolve matters now by plea, the resulting backlog will overwhelm the Court's ability to function effectively.
2. To permit defendant to enter a plea of guilty and obtain a speedy resolution of her case. Defendant has asked for this case to be resolved today by way of a hearing.
3. To permit the Government to obtain a resolution of the case so that the Government, already operating in a restricted capacity due to the emergency, may appropriately focus its resources on other, emerging criminal matters. The Government has asked for this case to be resolved today by way of a timely plea hearing.
